Thank you for choosing Educational Credential Evaluators, Inc., to evaluate your education. We have completed the evaluation process and have mailed all the report copies you ordered and paid for. Enclosed is your personal copy of the official ECE® evaluation report, any returnable academic documents, and any extra sealed report copies (if ordered). Please note that we retain all academic documents that we received in a sealed school envelope or that are photocopies.

Any questions about the information in our report should be asked by logging into your customer account at www.ece.org/Login. Questions will be answered and reports will be reviewed for up to one year for no additional fee. Inside your customer account, you can also find information on additional report copies.

As a non-profit public service organization, we prepare evaluation reports with the mission of ensuring your educational qualifications are properly recognized. We hope our professional evaluation report helps you to meet your goals as you seek further education, employment, professional licensure, or any other benefits.

Sincerely, Educational Credential Evaluators, Inc.

COURSE BY COURSE EVALUATION REPORT

Name: Irfan AHMED
Date of Birth: 15 June 1989
Purpose: Further Education

Reference: B66092/MNV

Date: 5 July 2018

U.S. Equivalence: Bachelor degree, major area of study: Electrical Engineering

Grade Average: 2.79

Credential: Bachelor of Engineering Electrical, Specialization in Electronics

Institution: Hajvery University

Country: Pakistan

Date: 2012

Comments: This coursework is the U.S. equivalent of study completed at an institution that has regional academic accreditation.

Admission to this program required completion of the United States equivalent of a high school diploma.

The Grade Average shown above includes only the final grades for repeated subjects. Courses may have been failed in previous attempts.

The academic work completed in this program can be converted to U.S. credits and grades as follows:

Courses	U.S. Credits	U.S. Grades
Basic Electronic Engineering	4.00	C
Functional English	3.00	C
Introduction to IT	4.00	C
Calculus & Analytical Geometry	3.00	C
Digital Logic Design	4.00	B
Circuit Analysis 1	4.00	B
Linear Algebra	3.00	A
Communication Skills	3.00	D
Computer Programming	4.00	B
Applied Physics	4.00	A
Pakistan Studies	3.00	C
Circuit Analysis	4.00	C
Computer Aided Engineering Design	1.00	C
Electronic Circuits Design	4.00	C
Differential Equations	3.00	A
Complex Variables	3.00	C
Numerical Methods	3.00	D
Electrical Machines	4.00	B

Educational Credential Evaluators (ECE) is a private, nonprofit organization. We are a charter member of the National Association of Credential Evaluation Services (NACES), an organization founded in 1987 to promote excellence in the field of credential evaluation. NACES member organizations demonstrate the highest ethical and practice standards through a rigorous membership process.

ECE® evaluation reports identify the U.S. equivalents of foreign educational credentials. Evaluation reports are prepared by our qualified professional staff, supported by a library of more than 35,000 publications dealing with international and comparative education and more than 350,000 sample educational credentials.

Our evaluation reports are statements solely of educational equivalence. We do not make judgments regarding an individual's English proficiency or eligibility for professional licensure, certification, or registration in the United States.

Where appropriate, ECE® evaluation reports indicate that the academic work was completed at the equivalent of an institution in the United States that has regional academic accreditation. Regional academic accreditation in the U.S. represents a status of official academic recognition for secondary and post-secondary institutions. This status means that the institution's academic programs and individual courses merit reciprocal recognition by other educational institutions, government agencies, and employers. Official academic recognition in other countries is different and variable; most countries grant academic recognition through a ministry of education or other governmental agency.

We report the quantity of post-secondary academic work completed in another country as semester hours of credit and secondary academic work as annual units. In the United States one year of full-time post-secondary academic work is typically represented by a total of 30 to 32 semester hours of credit, or 5 to 7 annual units for secondary academic work. Because each U.S. university, college, or high school is autonomous, each one will accept only those credits or units that meet its degree or diploma requirements. Therefore, the number of credits or units accepted for transfer may be lower than the number of credits or units on an ECE® evaluation report.

GRADES

Grades (marks) are converted to the A, B, C, D, F (4-point) grading scale used in the United States. Plus (+) and minus (-) grading symbols are not used because they denote a level of grading precision that is not possible to meet when one grading system is converted to another.

Grade	Points	Description
A	4	Excellent
B	3	Very good
C	2	Average
D	1	Below average
F	0	Failure

Grade averages are calculated by dividing the total number of grade points earned by the total number of credits attempted. See example below.

8 credits with A (x 4) = 32 points
8 credits with B (x 3) = 24 points
5 credits with C (x 2) = 10 points
6 credits with D (x 1) = 6 points
Total 27 credits and 72 points

Grades not included in the grade average		
Absent	-	Absent from course or exam
Ex	-	Exempt
I	-	Incomplete
IP	-	In progress
P	-	Pass on a pass/fail basis
S	-	Satisfactory completion of academic work where actual grades were not reported or where the grade was "S" on a satisfactory/unsatisfactory basis
Tr	-	Transfer credit granted
W	-	Withdrawn

Divide points by credits to calculate grade average:
 $72 \div 27 = 2.67$

Footnotes not identified on the evaluation report may be found at <https://www.ece.org/footnotes>.

ECE® evaluation reports are valid for five years. Official copies may be ordered during that period, although we reserve the right to withhold copies. Visit our website at [ECE.org/login](https://www.ece.org/login) for further information on ordering copies or if you have questions about the evaluation report.

Summary

It is the judgment of Educational Credential Evaluators, Inc. that Irfan AHMED has the United States equivalent of:

~ Bachelor degree, major area of study: Electrical Engineering

This evaluation report is based on original and/or authenticated educational documents.

Educational Credential Evaluators (ECE) is a private, nonprofit organization. We are a charter member of the National Association of Credential Evaluation Services (NACES), an organization founded in 1987 to promote excellence in the field of credential evaluation. NACES member organizations demonstrate the highest ethical and practice standards through a rigorous membership process.

ECE® evaluation reports identify the U.S. equivalents of foreign educational credentials. Evaluation reports are prepared by our qualified professional staff, supported by a library of more than 35,000 publications dealing with international and comparative education and more than 350,000 sample educational credentials.

Our evaluation reports are statements solely of educational equivalence. We do not make judgments regarding an individual's English proficiency or eligibility for professional licensure, certification, or registration in the United States.

Where appropriate, ECE® evaluation reports indicate that the academic work was completed at the equivalent of an institution in the United States that has regional academic accreditation. Regional academic accreditation in the U.S. represents a status of official academic recognition for secondary and post-secondary institutions. This status means that the institution's academic programs and individual courses merit reciprocal recognition by other educational institutions, government agencies, and employers. Official academic recognition in other countries is different and variable; most countries grant academic recognition through a ministry of education or other governmental agency.

We report the quantity of post-secondary academic work completed in another country as semester hours of credit and secondary academic work as annual units. In the United States one year of full-time post-secondary academic work is typically represented by a total of 30 to 32 semester hours of credit, or 5 to 7 annual units for secondary academic work. Because each U.S. university, college, or high school is autonomous, each one will accept only those credits or units that meet its degree or diploma requirements. Therefore, the number of credits or units accepted for transfer may be lower than the number of credits or units on an ECE® evaluation report.
